Information

Publication Information

Author: Xtreme Support - Global Support Systems and Standards

Publication Date: March 27th, 2013

Version: v 1.0

Intended Audience

This guide is intended for all Infor Customers that use Infor Xtreme, information contained within the guide is purely for Infor Customers

About this guide

The Infor Xtreme Net Change guide provides information on the latest customer related Enhancements or functional changes made to Infor Xtreme (www.infor.com/inforxtreme). A new customer net change guide will be created for each code push in which customers facing changes are made to Infor Xtreme. Each guide will cover any customer related changes in as much detail as possible so you are aware of any functionality changes that may affect your experience using Infor Xtreme.

This guide will be distributed via posting in the Announcement section of the Xtreme Portal

Enhancements

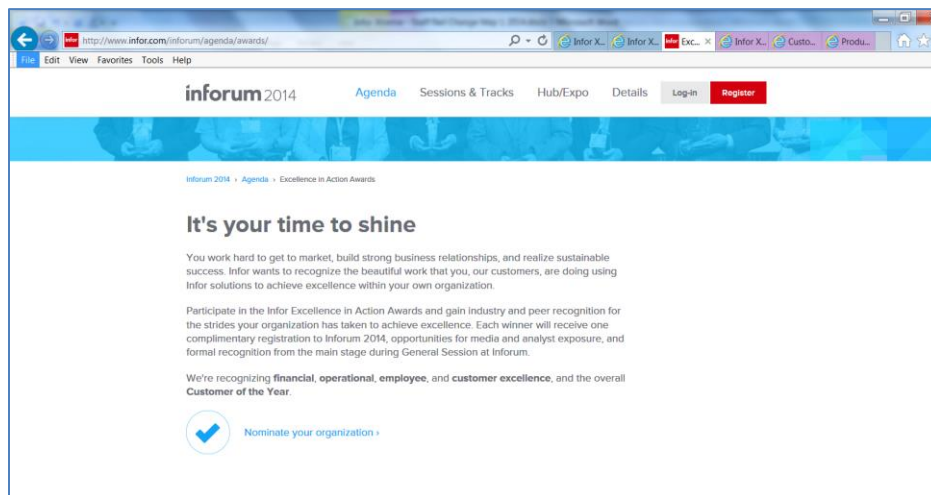

Home Page

Added Inforum icon for Excellence in Action Awards

We have added a link on the Infor Xtreme home page so you can nominate your companies for an Excellence in Action Award.

When you click on the ad, you will be directed to the Inforum 2014 Excellence in Action Award page, where they can nominate your companies for the Award.

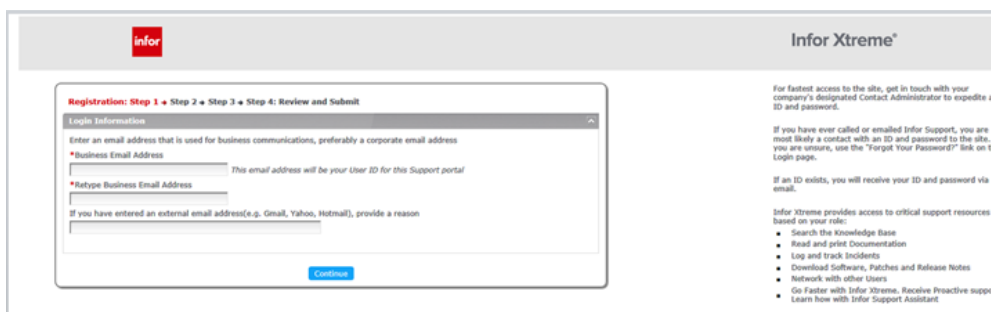

Removed the M3 Metadata Publisher option

The menu option for M3 Metadata Publisher was removed from the Support Resource section of the home page, as the option has been decommissioned.

Automated Registration

Added text to Registration Page

In preparation for the Hook and Loop changes to the Infor Xtreme Login page, the current text on the right hand side of the login page has been moved to within the Registration Page on the right hand side.

Defects

Incidents

Disabled contacts were receiving incident subscription notifications

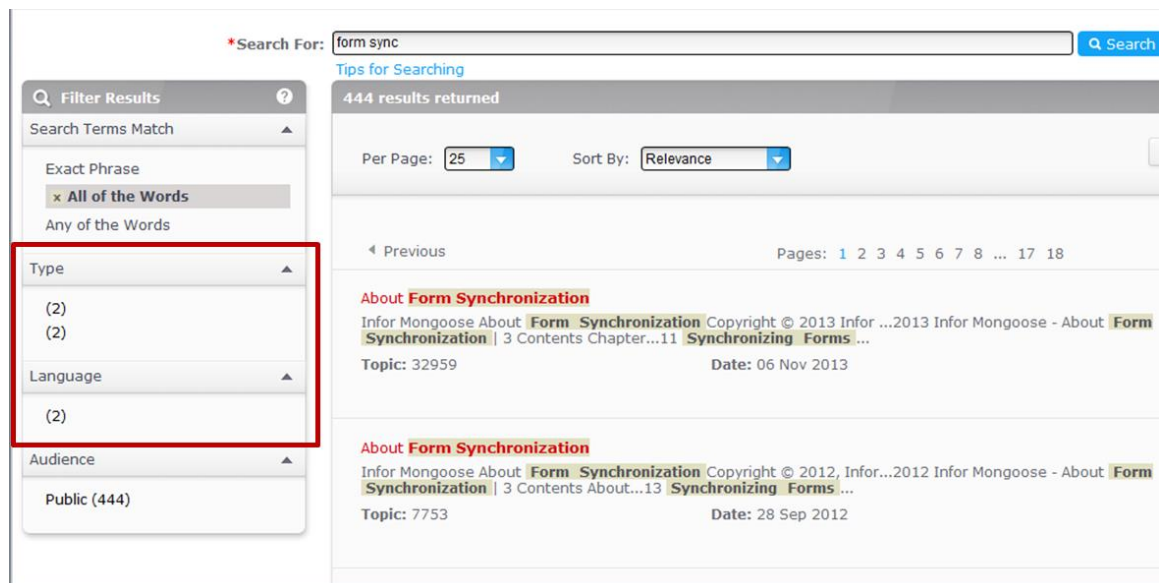

Disabled contacts were receiving incident subscription email notifications. This issue has been resolved and disabled contacts no longer receive incident subscription email notifications.

Documentation

Documentation Search: The search result facet values were not being displayed

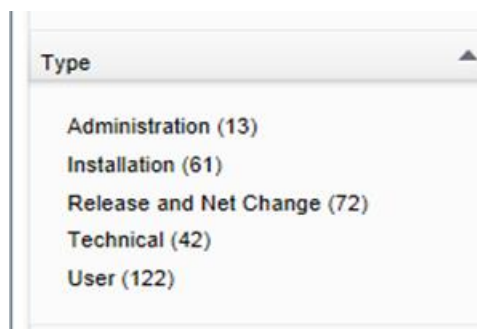

The facet values for Type and Language were not being displayed, but the counts of the facet values were being displayed.

Before resolution:

This issue has been resolved and the Type and Language facets are being displayed as expected.

After Resolution:

Language

English (309)
German (1)

Documentation Browse: Product drop-down did not show all available LMS products

The product drop-down only contained product “Learning Management Content Management” but should have contained both “Learning Management” and “Learning Management Content Management”.

Before Resolution;

Topic	Title	Description	Product
36507	Infor Certpoint Learning Management Portal Communities 4.0 Enhancements	Axero released a new version (4.0) their Communifi...	Learning Management Content Management
29075	LMS 8.0 Content Creator Build 25 Release Notes	LMS 8.0 Content Creator Build 25 Release Notes rel...	Learning Management Content Management
29240	LMS 8.0 Content Creator Build 26 Release Notes	LMS 8.0 Content Creator Build 26 Release Notes rel...	Learning Management Content Management
29522	LMS 8.0 Content Creator Build 27 Release Notes	LMS 8.0 Content Creator Build 27 Release Notes rel...	Learning Management Content Management

This issue has been resolved. The product drop-down now contains both products; Learning Management and Learning Management Content Management

After Resolution:

Topic	Title	Description	Product
	<input type="text"/>	<input type="text"/>	
36507	Infor Certpoint Learning Management Portal Communities 4.0 Enhancements	Axero released a new version (4.0) their Communi...	Learning Management

29522	LMS 8.0 Content Creator Build 27 Release Notes	LMS 8.0 Content Creator Build 27 Release Notes rel...	Learning Management Content Management
32494	LMS 8.0 Content Creator Build 28 Release Notes	LMS 8.0 Content Creator Build 28 Release Notes rel...	Learning Management Content Management

Documentation Browse: Search button was not launching the search page in a new window

The Search button on the Documentation browse page was launching the Search page in the same window but the Search page had no headers so the user could not navigate to other sections of Infor Xtreme. This issue has been resolved and the Search button now launches the Search page in a new window.
