| Mobile Supply Chain Management and Point of Use 11.0.1.x  | 68 - 69 |
| Mobile Supply Chain Management and Point of Use 11.2.0.0 connecting to LSF  | 68 - 69 |

**Infor Software - Compatibility Matrix for Lawson Products (On-Premise Deployment Only) September 30, 2020**

|   |         |
|---|---------|
| Mobile Supply Chain Management and Point of Use 11.2.0.0 connecting to CSF/Landmark | 70 - 71 |
| MSCM/POU Handheld Devices   | 72 - 73 |
| Lawson ION Connector, Lawson Sun Systems and Lawson XM Connector 10.0.0.0           | 74 - 75 |
| Infor Global Financial Controller   | 76 - 77 |
| Appendix A: Language Availability   | 78 - 79 |

**Using the Compatibility Matrix:**

When a cell indicates shortened release version (such as 10.0): that means it is supported from the first release ( e.g. 10.0.x) and continues through the current release.

When a cell indicates release version to another release version (such as 10.0.1 - 10.0.5) that means it is supported only during the indicated release range and is last available in the ending release version.

**Additional notes about information contained within this matrix:**

Customers are responsible in tracking the end of life support for the 3rd party products consumed and/or required within the Infor Lawson Solution.

Databases may be remote or local on Infor supported platforms as defined in this document. The exception is DB2 on IBM i where it is local.

If your Infor Lawson product requires a non-Infor Lawson application that is licensed through Infor and available from Infor Support Portal, ensure that you download and install the latest version compatible with your Infor Lawson product.

**Important Note:** This Compatibility Matrix (“Matrix”) does not contain information about all products offered by Infor. The intent is to provide information about compatibility and supported versions for Infor’s most widely used products. This Matrix does not create or amend any contractual obligations or warranties. Information contained herein is subject to change without notice. Infor makes no warranties or representations with respect to the accuracy of the information contained herein.

As a customer, you are fully responsible to make final decisions regarding products and applications licensed for your organization. You are encouraged to contact your Infor Account Executive for more specific details about product compatibility, especially when planning for a major system or product upgrade. The information in this Matrix is technical in nature and written for system administrators and Infor application administrators.

Trademark and Copyright Notices: All brand or product names mentioned herein are trademarks or registered trademarks of Infor, or the respective trademark owners. Infor customers or authorized Infor business partners may copy or transmit this document for their internal use only. Any other use or transmission requires advance written approval of Infor.

<sup>1</sup> Lawson Applications 10.0.7 plus mandatory JTs is required.

<sup>2</sup> Landmark Technology Runtime 11.0.30.x or higher is required.

<sup>3</sup> Infor Global Human Resources, Talent Management, and Landmark Technology Runtime products new release numbering effective March 29, 2018.

**Note: Customers using Infor Lawson System Foundation (LSF) 10.0.7.0 or higher, must use Distributed Security Package (DSP) 11.0.0.x for Infor Security Services (ISS)**

| UNIX-Windows Self-Service Applications and Internet Object Services (IOS) | Lawson Applications |
|---|---------------------|
| <b>Self-Service Applications</b>  | <b>10.0.x</b>       |
| Common Browser Library (CBL) <sup>1</sup>                                 | 10.0.2.0            |
| Customer (SCI)  | N/A                 |
| Employee and Manager Self-Service (SHR) <sup>2</sup>                      | 10.0.8.0            |
| Financial Reporting (SFI)   | N/A                 |
| Requisition Center (RQC) <sup>2</sup>                                     | 10.0.9.0            |
| Smart Reconciliation (SMR) <sup>2</sup>                                   | 10.0.7.0            |
| Vendor (SVI)  | N/A                 |
| Procurement Card (PCSS) <sup>2</sup>                                      | 10.0.7.0            |
| Procurement Punchout (Formerly e-Procurement) (EPP, EPPH)                 | 10.0.8.0            |

**Note:**

The number scheme used with each product offering represents the current version, feature, cyclical, and patch release level of that product. For optimum performance of our Internet products, customers are encouraged to upgrade to the latest release level available for the products they are using.

<sup>1</sup> Starting with version 10.0.3.0, Common Browser Library had been included in the EMSS package.

<sup>2</sup> Running EMSS, RQC, SMR and Procurement Card Self-Service within the Infor Smart Office browser is currently not supported.

<sup>1</sup>WAS ND 8.5 requires JDK 1.7

<sup>2</sup>Users running LSF 10.0.x on IBM WAS 8.5.5 FixPack 9 and above configured with IBM JDK8 must switch the version of Deployment Manager profile to JDK7. The rest of the profiles may be left on JDK8. The IOS web application must be uninstalled and reinstalled after the change.

<sup>3</sup>Minimum: Websphere MQ 7.0.1.3

<sup>4</sup>Visual Cobol 2.2 Update 2 is needed for RHEL

<sup>5</sup>Java Development Kit (JDK) 1.7 is supported on LSF 10.0.9.0 and below.

**Infor Lawson Foundation - Choice: 10.0.5.0 and higher**

<sup>1</sup>WAS ND 8.5 requires Java 1.7 64-bit IBM J9 VM

<sup>2</sup>Users running LSF 10.0.x on IBM WAS 8.5.5 FixPack 9 and above configured with IBM JDK8 must switch the version of Deployment Manager profile to JDK7. The rest of the profiles may be left on JDK8. The IOS web application must be uninstalled and reinstalled after the change.

<sup>3</sup>Java Development Kit (JDK) 1.7 is supported on LSF 10.0.9.0 and below.

**Infor Lawson Foundation - Choice:**

- Currently has 10.0.5.0 version and above
- Support components listed on this page except as noted

**Notes:**

<sup>1</sup> For Safari 9.0 or above, minimum Ming.le version supported is 11.1.9

<sup>2</sup> Infor Lawson Contextual Applications (Requisition to Payment) 10.0.0.0 starting with Lawson System Foundation 10.0.4.0

<sup>3</sup>MSCM/SIM/POU 10.1.x and 11.0.1.x supports up until Chrome 33 only

<sup>4</sup> Note: The Lawson for Infor Ming.le 10.1.0.0 delivers Infor Hook & Loop 4.0 HTML5 controls for viewing version 10.x Infor Lawson ERP applications. Version 10 self-service applications are unchanged under either Lawson for Infor Ming.le version 10.0.9.0 or 10.1.0.

<sup>5</sup>Lawson for Infor Ming.le 10.1.x only supports Chrome 64 or higher on Windows 10.

<sup>6</sup>Lawson for Infor Ming.le 10.1.x only supports Safari 11 or higher on Mac OS X.

<sup>7</sup>Firefox 28.0 or later on Windows 10 only.

<sup>8</sup>Lawson for Infor Ming.le 10.0.9.0 only supports Chrome 64 or higher on Windows 10.

<sup>9</sup>Required to install patches for JT-1110709 and JT-1256165 for Infor Lawson System Foundation 10.0.9.0.

<sup>10</sup>Requisition Center 10.0.6.0 does not support Firefox 67.0 Quantum

<sup>11</sup>Customers to install Microsoft ADFS patch (refer to KB 2107903); Follow Work instructions for web server configuration changes for LSF, Landmark, and DSSO (refer to KB 2112412);

<sup>12</sup>Lawson Application Products only supports Safari 13 on Mac OS Catalina or Higher

<sup>1</sup> Reference applicable Infor product sections elsewhere in this document for currently supported configurations/platforms and other related minimum version requirements.

<sup>2</sup> Reference applicable Vertex Compatibility Matrix for supported on premise installation configurations, as these may differ across operating system, database, web server and browser requirements between Infor and Vertex. Each product compatibility needs to be individually adhered to and cross-matched for common configuration supportability. While it is common practice for On Premise Lawson customers to install Vertex on their existing Infor utilized infrastructure, this is not a physical requirement for product functionality. In addition, please refer to said Vertex documentation for support and decommission dates on Vertex O Series versions 6 and 7.

<sup>3</sup> Utilization of Vertex cloud deployment options are preferred to on premise installations.

<sup>4</sup> Vertex O Series Connector utilizes schema 7 format for XML communication protocol via delivered Infor Process Automation flows.

## Infor Spreadsheet Designer

Below Table details the compatibility of various versions of Infor Spreadsheet Designer with the versions of Infor Landmark Technology Runtime and Microsoft

| Infor Spreadsheet Designer | Landmark Technology Runtime |
|----------------------------|-----------------------------|
| 10.0.x.0                   | 10.1.1.x                    |
| 10.0.x.0                   | 11.0.1.x                    |

|                                    | Office Professional Plus 2016 | Office Professional Plus 2019 | Office 365 ProPlus | Office 365 Business | Office 365 Business Essentials | Office 365 Business Premium | Office 365 Enterprise E1 | Office 365 Enterprise E3 | Office 365 Enterprise E5 | Office 365 Enterprise F1 |
|------------------------------------|-------------------------------|-------------------------------|--------------------|---------------------|--------------------------------|-----------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Infor Spreadsheet Designer Support | Yes                           | Yes                           | Yes                | No                  | No                             | Yes                         | No                       | Yes                      | Yes                      | No                       |

**Note:** Certain Microsoft Office license types do not support Office Add-ins. Therefore, Infor Spreadsheet Designer is not supported for those Microsoft Office license types. For more information about Microsoft Office license types, please see the Microsoft website at this link:

<https://docs.microsoft.com/en-us/office365/servicesdescriptions/office-applications-service-description/office-applications-service-description>

**Infor CloudSuite Financials & Supply Management - 11.0.x**

| <b>Product</b>   | <b>Compatible Version</b> | <b>Notes</b>                                 |
|--|---------------------------|--|
| Infor Landmark Technology Runtime  | 11.0.x                    | Minimum of 11.0.1.25 as of 2/23/17           |
| Infor Cloudsuite Financials & Supply Management  | 11.0.x                    |  |
| Infor Global HR & Talent Management  | 11.0.x                    |  |
| Infor Mobile Supply Chain Management (MSCM), Point of Use (POU) and Surgical Instrument Management (SIM) | 11.0.1.x<br>11.2.0.0      |  |
| Lawson System Foundation   | 10.0.9.0                  |  |
| Infor Human Resource Management  | 10.0.8.0                  |  |
| Infor Lawson Smart Office  | 10.2.1                    |  |
| Infor Global Financial Controller  | 10.4                      |  |
| Infor dEPM   | 11.2, 12.0.2              |  |
| Infor Business Intelligence  | 11.x                      |  |
| Infor Clinical Bridge  | 3.0                       |  |
| Infor Loca.ly  | 12.0                      |  |
| Infor Expense Management   | 10.0.x                    |  |
| Infor Ming.le  | 11, 12                    | Infor Ming.le 11 for LSF and Lawson Apps v10 |
| Infor ION  | 11.x, 12.x                |  |
| Lawson for Infor Ming.le   | 10.0.x, 10.1.0.0          | LSF Portal                                   |
| Infor Financial Management/Project Analytics/Supply Chain Analytics                                      | 11.0.1.x                  |  |

Note:  
Refer to the Landmark Technology Runtime specific version tables for details on 3rd party support and restrictions

**NOTE:** Lawson does not support a non-US English OS

**Strategic Sourcing / Contract Management / Supplier Order Management/Recall Management on Landmark Technology Runtime**

| Infor Lawson SupplyChain Management Applications 10.1.0.0 (And above) on Landmark Technology Runtime 10.1.1.x and 11.0.1.13 (And higher) |                                   | Infor Lawson System Foundation <sup>1</sup> |
|--|-----------------------------------|---|
| Operating System   | Database                          | Version                                     |
| Windows Server 2012 (64-bit)   | Shares database instance with LSF | 10.0.9.0 (Required with IPA 10.1.1.x)       |
| IBM AIX 7.1, IBM AIX 7.2 <sup>2</sup>  | Shares database instance with LSF | 10.0.9.0 (Required with IPA 10.1.1.x)       |

**Special Note:**

Lawson Smart Office and Strategic Sourcing/Contract Mgmt/Supplier Order Management are able to share a SQL Server database instance with LSF.

<sup>1</sup> See Lawson System Foundation section for additional supported platforms for the various LSF versions

<sup>2</sup> IBM AIX 7.2 is only supported by Landmark 11.0.1 and Higher, see Landmark Technology Runtime section

**Infor Lawson Enterprise Financial Management Applications, built with Landmark**

| 10.1.1.1 (And Higher) on Landmark Technology 10.1.1.1 (And Higher), 11.0.0.13 (And higher) and 11.0.1.13 (And higher) |                                   | Lawson System Foundation <sup>1</sup> | Lawson Applications |
|---|-----------------------------------|---------------------------------------|---------------------|
| Operating System  | Database                          | Version                               | Version             |
| Windows Server 2012 (64 bit)  | Shares database instance with LSF | 10.0.9.0                              | 10.0.7.0            |
| IBM AIX 7.1, IBM AIX 7.2 <sup>2</sup>   | Shares database instance with LSF | 10.0.9.0                              | 10.0.7.0            |

<sup>1</sup> See Lawson System Foundation section for additional supported platforms for the various LSF versions

<sup>2</sup> IBM AIX 7.2 is only supported by Landmark 11.0.1 and Higher, see Landmark Technology Runtime section

**Infor Cash and Treasury Management and Infor Close Management**

| Version               | Landmark Version  | Notes  |
|-----------------------|---|--|
| 10.1.1.1 (And Higher) | 10.1.1.1 (And Higher)<br>11.0.0.13 (And Higher)<br>11.0.1.13 (And higher) | Does not require Lawson System Foundation or Lawson Financials or Procurement applications |

**Infor Global Human Resources and Talent Management - Landmark Technology Runtime Compatibility**

**Infor Global Human Resources and Talent Management Application**

| Global HR and Talent Management | Landmark            | Notes  |
|---------------------------------|---------------------|--|

| MSCM (Mobile Supply Chain Management) <sup>1</sup> | 10.1.4.0                              | 10.1.6.0                          | 10.1.8.0                          | 10.1.8.15, 11.2.0.0                                  |
| EMSS (Employee and Manager Self-Service)           | 10.0.4.0                              | 10.0.6.0                          | 10.0.7.0                          | 10.0.7.0.10  |
| RQC (Requisition Center)                           | 10.0.4.0.153                          | 10.0.6.0                          | 10.0.6.16                         | 10.0.6.9   |
| Procurement Punchout                               | 10.0.3.0                              | 10.0.5.0                          | 10.0.5.1                          | 10.0.5.0   |
| Smart Reconciliation                               | 10.0.3.0.63                           | 10.0.5.0                          | 10.0.5.8                          | 10.0.5.4.29  |
| Procurement Card Self-Service                      | 10.0.3.0                              | 10.0.5.0                          | 10.0.5.0                          | 10.0.5.1   |
| Infor BI for Lawson <sup>2</sup>                   | 10.4.0                                | 10.5.0                            | 10.6.0                            | 10.6.0 HF19  |

<sup>1</sup> For ADFS 2.0/2.1 with ADFS trust setup or ADFS 3.0, minimum supported MSCM version is 10.1.6.0;

For ADFS 2.0/2.1 (without ADFS trust setup), minimum supported MSCM version is 10.1.4.0

MSCM is using LDAP Bind for windows mobile authentication while web and android are using ADFS and Infor OS as STS as Single Sign-on authentication.

<sup>2</sup> Infor BI for Lawson (LBI) is using DSSO for authentication

<sup>3</sup> Infor Smart Office and Infor Lawson Analytics do not support Infor OS as STS configuration. Infor OS 12.0.30 is the minimum version that supports Infor OS as STS.

\*\* Review the README document available on the Infor Security 11.0.0.0 product record in Infor Download Center for compatibility with Infor Lawson System Foundation/Infor Landmark Technology and specific Infor Security 11.0.0.x Build dependencies

| Web Browser              | Internet Explorer 11.0                              |  |

**Server Requirements for Infor Smart Office created for LCM 10.x**

| <b>Component</b>             | <b>Supported Version(s)</b>  | <b>Notes</b>  |
|------------------------------|--|---|
| Operating System             | Windows Server 2012 x64 and Windows Server 2012 R2 x64 Standard, Enterprise or Data Center Edition |   |
| Web Server                   | Internet Information Services (IIS) for Windows Server<br>IBM HTTP Server for Windows Server       | Required if you want to use multiple installation points and/or host Infor Smart Office video library.          |
| LifeCycle Manager            | 10.1.1.0, 10.1.2   | For Infor Smart Office installations, the LifeCycle Manager service must be installed using JDK 1.7.            |
| Infor ION Grid               | 11.1.11.x, minimum version 11.1.11.1   |   |
| GDBC                         | Use the version delivered with Lawson Grid.  | It is recommended to use SQL Server as a database if you want to be able to support future scale out scenarios. |
| Distributed Security Package | For Lawson System Foundation 10.0.x<br>Use the Distributed Security Package version 10.1.0.x.      |   |
| DSSO Session Provider        | Use the DSSO SP 2.0.7 found as a separate download for Infor ION Grid 11.1.11.0 under LSF.         |   |

**Electronic Data Interchange 10.0.x**

| <b>EDI Third Party Products</b>               |   |
|---|---|
| IBM WebSphere Transformation Extender 8.4.0.3 | Available on AIX , HP, SUN and Windows<br>Not Available on IBM i operating systems              |
| Perl  | 5.8 is the minimum required version<br>ActiveState and Strawberry Perl are supported on Windows |

**Notes:**

- A – IBM WebSphere Transformation Extender is delivered with 10.0.x levels of EDI Professional only.
- Refer to the UNIX and Windows Operating System section for the supported LSF versions of the IBM WebSphere Transformation Extender 8.4.0.3.

**Fax Integrator 10.0.x**

| Component  | Supported Versions                                 | Notes  |
|--|--|--|
| Operating System                                   | Windows 10   | *Fax Integrator supports a 64-bit (x64) operating system.  |
|  | Windows 2012                                       | * Fax Integrator interfaces with Lawson applications running on either Unix, Windows or IBM i servers.             |
|  | Windows 2012 R2                                    |  |
| Lawson Enterprise Applications                     | 10.0.8.0   |  |
| Lawson System Foundation                           | 10.0.9.0   |  |
| Other Requirements                                 | SQL Server Compact Edition 3.5 SP2                 | When installing SQL Server Compact 3.5 SP2 on a 64-bit system, both the 32-bit and 64-bit files must be installed. |
|  | Microsoft .NET Framework version 3.5               |  |
| Optional Component: E-mail                         | SMTP (Simple Mail Transfer Protocol) mail services |  |
| Optional Component: Internet Object Services (IOS) | 10.0.x IOS (included in Lawson System Foundation)  |  |

**Infor Lawson Add-ins for Microsoft Office**

| Version   | Microsoft Windows Desktop Client | Microsoft Office                     |
|-----------|----------------------------------|--------------------------------------|
| 10.0.9.29 | Windows 10                       | Office 2019, Office 2016, Office 365 |

\*Java Development Kit (JDK) 1.7 is supported on LSF 10.0.9.0 and below.

**Infor Lawson Unix Utilities 10.0.x**

The Lawson UNIX Utilities (LUU) are a set of utilities that allow Infor Lawson System Foundation and related applications to run on the Microsoft Windows Server platform.

You can install LUU prior to installing Lawson Core Technology. Or, you can re-configure existing Environments to use LUU.

| Component                      | Supported Version   | Notes  |
|--------------------------------|---|--|
| Infor Lawson System Foundation | 10.0.9.0 and higher   |  |
| Operating System               | Windows 2012  |  |
| Microsoft products             | Utilities and SDK for UNIX-based Applications<br>Microsoft products<br>Microsoft Visual C++ Redistributable Package<br><br>Required Windows hotfixes:<br><br>• <a href="http://support.microsoft.com/kb/981194">http://support.microsoft.com/kb/981194</a><br>(All supported Windows platforms) | This component is available in the Microsoft Download Center.  |
| Cygwin                         | Download the latest Cygwin version.   | LUU uses this product, and is available for LUU 10.0.3.0 and later version.<br><br>Cygwin downloads are available from the Cygwin website. |
| Java SDK                       | Current release of Java SDK 1.7   | Java SDK is only needed by the LUU installer.  |
| Perl                           | 5.8<br>5.10<br>5.12<br>5.16<br>5.18<br>5.20<br>5.22<br>5.30   | The LUU installation program uses Perl.<br>ActiveState and Strawberry Perl are supported for Windows.                                      |

## Lawson HR Service Delivery (HRSD)

Lawson Resource Navigator (LRN) and all references to are now called Lawson HR Service Delivery which is now the new suite name. This suite of applications is only available by subscription license. To better align with Enwisen product names, the Lawson Resource Navigator Product names have also been retired and are being replaced with new names. Note that the SKUs used remain the same. The new names are as follows:

| Lawson Resource Navigator-Retired Naming | License SKU | New Descriptor                 |
|--|-------------|--------------------------------|
| Lawson Employee Resource                 | LEMPR       | Knowledge Base- Employee       |
| Lawson Manager Resource                  | LMGRR       | Knowledge Base- Manager        |
| Lawson HR Resource                       | LHRP        | Knowledge Base-HR Professional |
| Lawson Total Compensation                | LTC         | Total Rewards                  |
| Lawson HR Call Center                    | LCTR        | Case Management                |
| Lawson Onboarding                        | LONB        | Onboarding                     |
| Lawson Offboarding                       | LOFB        | Offboarding                    |

- Current Product SKUs are being used as they exist today to insure continuity between Lawson customer and Enwisen customer product purchases. These SKUs represent product bundles. The content of these bundles will remain the same as what was delivered previously.
- Product pricing for the HRSD applications continues to be the same pricing model used previously. HR Service Delivery pricing can be found in the current Pricing Configurator.
- Lawson HRM customers who license Employee and Manager Self –Service can use the embedded bookmarks in EMSS to link to HRSD applications (once licensed). This configuration makes connecting to the HRSD products easier.
- LTM, former-Enwisen non-Lawson customers and new non-Lawson customers sold HRSD are not required to license Employee and Manager Self-Service.
- Former Enwisen and new non-Lawson customers have no Lawson product dependencies/requirements. Simply order HRSD application by SKU.

| Component                      | Supported Versions               | Notes   |
|--------------------------------|----------------------------------|---|
| Lawson Enterprise Applications | 10.0.8 or later                  |   |
| Lawson System Foundation       | 10.0.9.0 or later                | Lawson System Foundation (LSF) must be configured for IPA. See the Infor Lawson System Foundation Using Infor Process Automation Configuration Guide for more information.                                |
| Landmark Technology Runtime    | 10.1.1 or later<br>11.0 or later |   |
| Infor Process Automation (IPA) | 10.1.1 or later<br>11.0 or later |   |
| Perl                           | 5.20 or later                    | - Perl is required to run the LeaseQuery Connector.<br>The following must also be installed<br>(1)Archive::Extract Module and (2)MinGW compiler.<br>- ActiveState Perl and Strawberry Perl are supported. |

**Infor Lawson System Mobile Monitor 10.0.x**

Infor Lawson System Mobile Monitor enables administrators to monitor an Infor Lawson System Foundation system and perform some administrative tasks through their mobile devices.

| Component                      | Supported Version  | Notes |
|--------------------------------|--|-------|
| Infor Lawson System Foundation | 10.0.9.0 or higher   |       |
| Client Requirements            | <ul style="list-style-type: none"> <li>• A device running the supported OS (refer to Supported devices)</li> <li>• Network HTTP or HTTPS access to the Server</li> </ul> |       |
| Supported Devices              | <ul style="list-style-type: none"> <li>• iPhone running iOS 11 - 13</li> <li>• Android device running Android OS 8 - 10</li> <li>• iPad iOS 11 - 13</li> </ul>           |       |

Note: Older versions are superseded by new releases. Download the most current version.

**Infor System Console 10.0.x.0**

Infor System Console is a tool that administrators can use to monitor and administer an Infor Lawson System Foundation system. The Infor System Console is a browser-accessible tool whereas the Infor Lawson System Mobile Monitor is an application for Android and iPhone devices.

| Component                         | Supported Version  | Notes   |
|-----------------------------------|--|---|
| Infor Lawson System Foundation    | 10.0.9.0 or higher   |   |
| Windows                           | Any Windows that supports your version of the Java SDK, such as Cygwin   | Windows is required to run the installation program in GUI mode.  |
| Databases                         | Databases and versions used by LSF on all platforms are supported with the exception of IBM DB2 for z/OS on Windows and UNIX platforms | Same database support with LSF is only applicable on 10.0.7.x   |
| Web browser                       | Google Chrome<br>Internet Explorer 11<br>MS Edge 40<br>MS Edge Chromium 79   | MS Edge version 40 is supported on Infor System Console 10.0.6.0<br>MS Edge Chromium 79 is only supported on 10.0.7.x |
| LDAP Browser                      | N/A  |   |
| Landmark                          | 11.0.22 or higher  |   |
| Lawson Interface Desktop (LID)    | 10.0.x (latest available)  |   |
| Lawson Security Administrator     | 10.0.x (latest available)  |   |
| Resource Management Administrator | 10.0.x (latest available)  |   |

**Configuration Notes:**

- Items with \*\* are recommended devices for POU Di 10.X version
- Devices with 256 MB are required for Point of Use.
- Charging cradles can use MSActiveSync (Version 3.8 or higher supported, 4.5 or higher recommended) OR Windows Mobile Device Center to connect to PC via USB or Serial.
- Handheld units are required for Par & Cycle Counting and Receiving & Delivery and recommended for Point of Use.

**Label Printer Supported Versions:**

Any IPL or ZPL compatible printer from Intermec or Zebra

**Mobile Printer:** Zebra P4T

**Chrome Related version in Android**

- Chrome version 85.0.4183.81 and below

- Android System Webview version 85.0.4183.81 and below

**Touchscreen Device Models**

- MicroTouch M150

- MicroTouch M170

**Print Agent**

| Component        | Minimum Supported Version                          |

**Notes:**

- Please refer to ION Connector Required JT List on the Product Download Page.
- Lawson System Foundation (LSF) must be configured for IPA. See the Infor Lawson System Foundation Using Infor Process Automation Configuration Guide for more information. Some integration scenarios require specific application patches. Reference the related integration guides. Individual integration scenarios have their own application version requirements. Refer to the Integration Guide under "System Requirements" section to check the details of your scenario.
- IPA Services for Infor Lawson is delivered with Infor Process Automation as of 10.1.1
- Perl is required to run the Lawson ION Connector Installer

| <b>Lawson SunSystems Connector 10.0.0.0 (Point to Point)</b> |   |
|--|---|
| <b>Component</b>   | <b>Notes</b>  |
| Lawson Enterprise Applications                               | This connector uses: General ledger (GL) and optionally Activity Management (AC) and Strategic Ledger (SL). |
| Infor Process Automation                                     | This is the Infor Process Automation runtime version delivered via Landmark Technology Runtime.             |
| Infor10 Financials Business (SunSystems)                     |   |

| <b>Lawson XM Connector 10.0.0.0 (Point to Point)</b> |  |
