

Documentation now on docs.infor.com

As part of our plan to move current versions of product documentation to Documentation Central, *Solution Overview* is no longer available on the Infor Support Portal.

To view documentation for this product, go to https://docs.infor.com/csbi/2023.x/en-us/solution_overview_cl_sl/default.html.

You can view or download a PDF of your documentation from the browser. You can also print individual topics.
