

Release Notes version 1.0 (September 11, 2001)

Language Packs for E-Service 2.0

This Language Pack for E-Service 2.0 deviates from the English version in the installation, system administration, and customer use. This document briefly explains the differences.

Pre-Requirements

E-Service 2.0 is installed. If Service Packs are available these should be installed as well.

Installation

Create an empty folder on the webserver.

Start the language pack .exe file and extract it to the newly created folder

Start setup.exe from the new folder

Note

- Only upgrade to newer release of E-Service if language packs for all your installed languages are available.
