About this Guide

This document describes the contents of Service Pack 25 and how to install Service Pack 25 on Baan Dimensions 6.0. This document is intended for Baan IVc4 installers and system administrators.

The following chapters are included:

- Chapter 1, “Introduction,” briefly describes Service Pack 25 for Baan Dimensions 6.0.
- Chapter 2, “To Install the Service Pack,” describes how to install Service Pack 25 for Baan Dimensions 6.0.
- Chapter 3, “Functional Enhancements and Important Solutions,” describes the most important functional enhancements and solutions of Service Pack 25 for Baan Dimensions 6.0.

Send us your comments

We continually review and improve our documentation. Any remarks/requests for information concerning this document or topic are appreciated. Please e-mail your comments to documentation@infor.com.

In your e-mail, refer to the document number and title. More specific information will enable us to process feedback efficiently.

Chapter 1
Introduction

1

Service Pack 25 is intended for Baan Dimensions 6.0 users, and can be used only to upgrade existing Baan Dimensions 6.0 installations.

Service Pack 25 contains the following:

- All Baan IV bug fixes from November 13, 2007 through May 12, 2008 that needed to be built into the Baan Dimensions software.
- All Baan Dimensions bug fixes from November 17, 2007 through May 16, 2008.

The Service Pack can be installed by the PMC tool on the following hardware platforms:

- UNIX
- Microsoft Windows

The following table shows for which extensions and languages the Service Pack is available.

Extension	Code	Dutch (1)	English (2)	German (3)	French (4)	Swedish (9)
Baan Dimensions 6.0 SP25	B40C_c4_m600	X	X	X	X	
Overlap Baan Dimensions 6.0 SP25 and Controlling (cnt0)	B40C_c4_mc06		X	X		
Overlap Baan Dimensions 6.0 SP25 and the French localization (fre0)	B40C_c4_mf06		X		X	
Overlap Baan Dimensions 6.0 SP25 and the Nordic localization (nc20)	B40C_c4_mn06		X			X

Translations for other languages are delivered upon request.

Contents

The Service Pack CD-ROM contains the following PMC dumps and files:

- spb40c4_25m600:
  Contains fixes for the Baan Dimensions 6.0 extension software and the new functionality for the extension software.
- spb40c4_25mc06:
  Contains fixes for the overlap with the Controlling extension.
- spb40c4_25mf06:
  Contains fixes for the overlap with the French localization.
- spb40c4_25mn06:
  Contains fixes for the overlap with the Nordic localization.
- Baan Dimensions 6.0 – Installation and Deployment Guide for Service Pack 25 (U9526A US).
- Overview of solution numbers (solutions_sp25_m600.txt).

- Overview of customization parts (customization_parts_sp25_m600.txt).

Chapter 2
To Install the Service Pack

2

Preinstallation requirements

Before you install Service Pack 25, the following preinstallation requirements are applicable:

- spb40c4_25m600:
  - All service packs up to and including spb40c4_25stnd
  - All service packs up to and including spb40c4_24m600

- spb40c4_25mc06:
  - All service packs up to and including spb40c4_25stnd
  - All service packs up to and including spb40c4_25cnt0
  - All service packs up to and including spb40c4_25m600
  - All service packs up to and including spb40c4_24mc06

- spb40c4_25mf06:
  - All service packs up to and including spb40c4_25stnd
  - All service packs up to and including spb40c4_25fre0
  - All service packs up to and including spb40c4_25m600
  - All service packs up to and including spb40c4_24mf06

- spb40c4_25mn06:
  - All service packs up to and including spb40c4_25stnd
  - All service packs up to and including spb40c4_25nc20
  - All service packs up to and including spb40c4_25m600
  - All service packs up to and including spb40c4_24mn06

Ensure that sufficient free disk space is available; you need at least 500 MB to install the Service Pack. The required space for the dimensions data depends on the database management system that you run.

Note

Ensure that a backup of the $BSE environment and data is available. If you do not have a backup, before you start the installation procedure, create a backup.

To install the Service Pack

To install Service Pack 25 for Baan Dimensions 6.0, complete the following steps:

Copy and scan Service Pack 25

To copy and scan the Service Pack, complete the following steps:

1 Copy the files to the type of system on which you work:

UNIX users
Copy the files from the CD-ROM to a temporary subfolder on your local

system. To transfer the data from the temporary subfolder to a temporary subdirectory in the Baan root directory, such as ${BSE}/tmp/dumps, use FTP in binary mode.

Windows NT users
Copy the files from the CD-ROM to a temporary subfolder in the Baan root directory, such as e:\baan\tmp\dumps.

2 Ensure that you install the solutions of Service Pack 25 in the same update VRC used for Service Pack 24.

If Infor alliances or customers want to upgrade customizations to the level of Service Pack 25, they can install Service Pack 25 in a separate update VRC. To do so, Infor alliances or customers must manually create a new Update VRC in PMC and use the Copy Solution Registry to Derived Update VRC (ttpmc2290m000) session. After this session has been used, solutions can not be uninstalled. Therefore, it is recommended that you install the solutions in the same update VRC used for Service Pack 24.

3 Scan the PMC dumps with the Scan Solution File (ttpmc2200m000) session. Always scan the PMC dump for the Baan Dimensions 6.0 SP25 extension software (spb40c4_25m600). Depending on the extensions used in your package combinations, scan one or more of the following PMC dumps:

- For the overlap with Controlling: spb40c4_25mc06.
- For the overlap with the French localization: spb40c4_25mf06.
- For the overlap with the Nordic localization: spb40c4_25mn06.

For more information, refer to the “Derived-from VRC structure for Baan Dimensions 6.0 SP25 localizations” section later in this chapter.

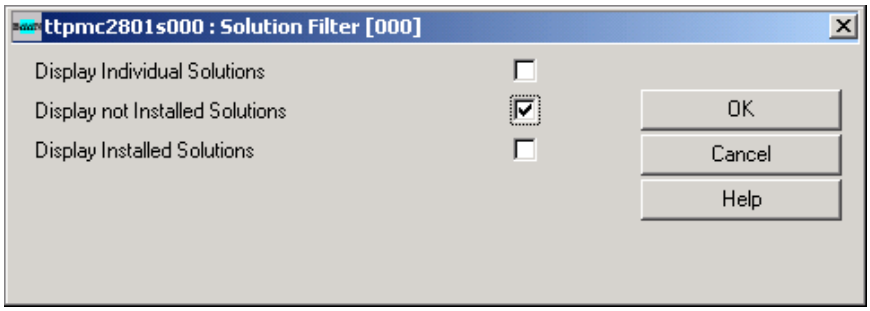
Install Service Pack 25

To install the Service Pack 25, complete the following steps:

1 In the Process Solutions (ttpmc2101m000) session, process the PMC dumps that you copied and scanned in the previous process.

Note

If you process the solution in the Process Solutions (ttpmc2101m000) session, click **Filter** and change the settings as shown in the following figure. Only the spb40c4_25m600 solution appears.



2 For the 40Ccm600 package combination and all derived package combinations, run the Create Runtime Data Dictionary (ttadv5210m000) session.

3 For all the B40C_c4_m600 packages, run the Create Runtime Data Dictionary (Forms and Menus) (ttadv5214m000) session.

4 For all the B40C_c4_m600 packages, run the Create Runtime Help (ttadv5230m000) session.

5 To create tables for all companies on B40C_c4_m600, run the Create Tables (ttaad4230m000) session.

Source codes of PMC Service Packs

Solutions and Service Packs that are created by Infor and installed through the PMC tool include the source code of modified components. The source codes of program scripts, libraries, and functions are installed only if a previous version of the source code of the component exists in the environment in which the solution or Service Pack is installed.

For example, if a fix is created for solution 71291 in the program script tdilc4202, the PMC dump for this solution contains the program script source and the program object.

This solution is installed at system X in the update VRC B40U_c4_stnd. Before you install the program script source, the PMC tool checks whether the program script source exists in the update VRC, or in a VRC in the derived-from structure for the update VRC.

If the program script source of tdilc4202 already exists, the new program script source and the program object are installed from the PMC dump of the solution. If the program script source is not found, only the program object is installed.

Before you install a solution or Service Pack through PMC, Infor alliances or customers who need the source codes must ensure that the sources exist in the environment in which the solutions or Service Packs are installed.

Derived-from VRC structure for Baan Dimensions 6.0 SP25 localizations

Overlap with Controlling (cnt0) extension		
	B40_c4	
	B40U_c4_stnd	VRC for patches and solutions on Baan IVc4. Ensure that you have installed Service Pack 25 in this VRC.
	B40L_c4_cnt0	
	B40U_c4_cnt0	VRC for patches and solutions on the Controlling (cnt0) extension. Ensure that you have installed Service Pack 25 in this extension VRC.
	B40C_c4_m600	VRC that contains the initial Baan Dimensions 6.0 extension software, patches, and solutions. Ensure that you have installed Service Pack 25 (spb40c4_25m600) in this extension VRC.
	B40C_c4_mc06	VRC with overlap between Baan Dimensions 6.0 and the Controlling (cnt0) extension. You must install the Service Pack 25 overlap (spb40c4_25mc06) in this overlap VRC.

Overlap with French (fre0) localization	
B40_c4	
B40U_c4_stnd	VRC for patches and solutions on Baan IVc4. Ensure that you have installed Service Pack 25 in this VRC.
B40L_c4_fre0	
B40U_c4_fre0	VRC for patches and solutions on the French (fre0) localization. Ensure that you have installed Service Pack 25 in this localization VRC.
B40C_c4_m600	VRC that contains the initial Baan Dimensions 6.0 extension software, patches, and solutions. Ensure that you have installed Service Pack 25 (spb40c4_25m600) in this extension VRC.
B40C_c4_mf06	VRC with overlap between Baan Dimensions 6.0 and the French (fre0) localization. You must install the Service Pack 25 overlap (spb40c4_25mf06) in this overlap VRC.

Overlap with Nordic (nc20) localization		
	B40_c4	
	B40U_c4_stnd	VRC for patches and solutions on Baan IVc4. Ensure that you have installed Service Pack 25 in this VRC.
	B40L_c4_nc20	
	B40U_c4_nc20	VRC for patches and solutions on the Nordic (nc20) localization. Ensure that you have installed Service Pack 25 in this localization VRC.
	B40C_c4_m600	VRC that contains the initial Baan Dimensions 6.0 extension software, patches, and solutions. Ensure that you have installed Service Pack 25 (spb40c4_25m600) in this extension VRC.
	B40C_c4_mn06	VRC with overlap between Baan Dimensions 6.0 and the Nordic (nc20) localization. You must install the Service Pack 25 overlap (spb40c4_25mn06) in this overlap VRC.

Chapter 3
Functional Enhancements and Important Solutions

3

There are no functional enhancements and solutions for Service Pack 25 that affect the current working of the software in such a way that they should be mentioned explicitly.
